

# REVOLUTIONALISE YOUR HEALTH WITH BIOTRANSFORM™

"My ultimate goal is to stay healthy while keeping my physique in top shape," says Mr South Africa, Adriaan Bergh. "It's easy to fall into the trap of being so focused on your outward appearance that you forget to pay attention to the inner wellbeing of your body. **Biotransform™** has enabled me to look after both."

## WHAT IS BIOTRANSFORM™?

"**Biotransform™** is a cutting-edge diagnostic and analysis tool that allows for a personalised healthcare solution," explains Dr Wian Stander, co-founder of **Biotransform™**. "The concept of **Biotransform™** was born from a number of problems confronting many people today, namely chronic fatigue, neurodegenerative disorders, premature ageing, metabolic syndrome, diabetes and a variety of other degenerative illnesses stemming from unknown sources. Research has shown that many of these illnesses could be connected to a common factor – the devastating effect of a toxin overload."

## HOW DOES IT WORK?

**Biotransform™** tackles various medical conditions the natural yet scientific way by addressing specific metabolic pathways and sources of free radicals within your body. It functions on the basis of replenishing depleted substances required by the liver to remove toxins from the body, thereby enhancing the well-being and natural endurance of the body.

**Biotransform™** harnesses the power of over R40million worth of cutting-edge diagnostic equipment to create a meaningful shift in your health. Based at North-West University, it is the only South African metabolomics platform and is one of a few in the world.

## THE PROCESS

"The **Biotransform™** testing process is very easy and doable for every person," says Adriaan. "My physician, Dr Wian Stander, conducted a medical examination which included the analysis of blood, urine and saliva samples. The results were then used to formulate a supplement just for me which contains the right quantities of ingredients for my body. So now I am consuming the correct therapeutic dosages above minimum RDA allowances which not only protects my body against free radicals, but also provides a far more effective approach."

## THE RESULTS

"**Biotransform™** has completely transformed my health for the better. Not only am I looking better, but I feel healthier and stronger within," says Adriaan. "It is giving me the edge one needs in today's the professional world."

"I would most definitely recommend **Biotransform™** not only to active people, but to each and every person who wants their body to function perfectly through each organ doing exactly what it's supposed to do!"
